*Allowable Subject Matter*

1. Claims 40, 41, 44-46 and 48-52 allowed.
2. The following is an examiner's statement of reasons for allowance: The following is a statement of reasons for the indication of allowable subject matter: The closest prior art, Pipkins' Maxima Advantage incorporating Mustang Reports <sup>TM</sup>, teaches forecasting email over time and scheduling workforce to meet the email demands wherein it would have been obvious to use a function to distribute the email over a time span so the workforce could meet the service goals, but Pipkins does not teach the recited methods of calculating the given function to propagate the contact load, wherein the given function generates a product of a first and second value, wherein the first value is a product of the contact load for the given future time period and the given service level goal for the given future time period and the second value is a quotient of a propagation value for a time period of the given set of the identified number of time periods divided by a sum of propagation values for the given set of identified number of time periods.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
